

## Inline vs Display Mode

Inline mode:  $E = mc^2$ ,  $y = ax^2 + bx + c$ ,  $\sum_{i=1}^n i = \frac{n(n+1)}{2}$   
Same formulas in display mode:

$$E = mc^2$$

$$y = ax^2 + bx + c$$

$$\sum_{i=1}^n i = \frac{n(n+1)}{2}$$
